*Wonderful species Siberian Jay is to find in Siberian Boreal Forest near Ulaanbaatar city.*

## **AN ADVENTURE BIRDING EXPERIENCE IN MONGOLIAN COLD WINTER**

**Siberian Jay and Tit, Rough-legged Buzzard, Pallas's Rosefinch, and many more**

### **Trip Information**

**Date & Duration:** This tour will run two times a year; February 25- March 02 or 25 November - 01 December, respectively. And it continues for 8 days including arrival and departure date in Mongolia.

**Price per person** 1500 US\$ includes all transport within Mongolia by 4WD including petrol, English speaking bird guide, meals except last dinner, and bottled water, organize city tour and shopping, entrance fees, road tolls, visa support invitation letter if necessary.

**Deposit** 450 US\$ should be paid through our website 3 months in advance. Be sure that you have read the terms & condition before you make a payment.

**How to book** Easily click on the [Book this tour](#) button on each tour's page and you will be delivered to the booking form, in which you will be asked specific questions. Our collaboration with Khan Bank has been taken care of the safety of transfer.

**Group Limit** 4-8 participants, plus a local guide

**Accommodation** Please note that the hotels you are staying at are below the average of international hotels, but they are clean, comfortable, and en suite hotels.

Depending on the availability, we might stay one or two nights at permanent tourist ger camp, which has gers (yurts) for accommodation and separate blocks with European style toilets and shower room, as well as restaurant. Each ger is equipped with a small wood or coal burning stove, which fired by a worker of the camp. En suite gers are also possible, but it charges little bit higher than the standard ones.

**Meals** All main meals are included in the price, except farewell dinner at a restaurant because we will be happy for you to choose your own dishes.

We will usually have packed lunches in the field near the birding sites.

**Levels** The tour is suitable to bird watchers with different levels of skills, and ages. Our experienced guide will do his/her best to explain everything about birds, wildlife, and you name it.

We will do easy and moderate walks during this trip. In Terelj NP, there might be no tracks in the snow on the mountains so you may need long boots.

**Road and Transport** We will mostly drive on paved road during this trip. The longest drive will cover 200 km a day, which will take about 3 hours without stops. Toyota Land Cruiser or Mitsubishi Delica will be employed because they are comfy and warm inside. Our experienced and skillful drivers will drive safely on the occasion of off road journey.

**Weather** Temperature in late November and late February is about -15 to -5 Celsius degrees during days depending on the year. Snow storm rarely occurs in these months. You can check weather forecast on [www.tsag-agaar.mn](http://www.tsag-agaar.mn) while you are packing or staying at the hotels in Mongolia where it is possible.
