Northern Parrotbill (*Paradoxornis polivanovi mongolicus*) breeds in the reedbeds of Ikh Tashgai Lakes in Eastern Mongolia.

## Eastern Mongolia: Bird Specialties from East Asia

Eastern Marsh Harrier, Oriental Plover, Northern Parrotbill, Yellow-breasted and Japanese Buntings

### Trip Information

**Date & Duration:** 16-31 May. It continues for 16 days including arrival and departure dates in Mongolia. You can tailor make this tour depending on your time schedule and wish list.

**Price per person:** 3340 US\$, includes all transport within Mongolia by 4WD including petrol, English speaking bird guide, meals except last dinner, and drinking water, organize city tour and shopping, entrance fees, road tolls, visa support invitation letter if necessary.

**Deposit:** 1002 US\$ should be paid through our website 3 months in advance. Be sure that you have read our *terms & condition* before you make a payment.

**How to book** Easily click on the 'Book this trip' button on each tour's page and you will be delivered to the booking form, in which specific questions asked. Our collaboration with Khan Bank has been taken care of the security of transfer.

**Group Limit** 4-13 participants, plus a local guide

**Accommodation** Please note that the hotels you are staying at are below the average of international hotels, but those are clean, comfortable, and has en suite rooms.

Due to development of tourism in the area we are visiting, we will stay overnights in tented camps near birding sites in Eastern Mongolia. Field chairs and tables, a water-proof tent per person will be provided. We will use very simple field toilets in which we dig up a hole and put two pieces of wooden planks. Our cook will serve with simple Mongolian food using meat and simple vegetables including potatoes, carrots, cabbages, onions and peppers etc.

In rural Mongolia, you will stay overnights in permanent tourist ger camps, which have gers (yurts) for accommodation, and separate blocks with European style toilets and shower rooms, as well as restaurant. Each ger is equipped with a small wood or coal burning stove, which fired by a worker of the camp. Deluxe en suite gers are also possible, but it charges little bit higher than the standard ones.

**Meals** All main meals are included in the price, except farewell dinner at restaurant because we will be happy for you to choose your own dishes.

We will have optional packed lunches in the field near birding sites. Cook will prepare field meals.

**Levels** The tour is suitable to every bird watcher with different levels of skills, and ages. Our experienced guide will do his/her best to explain everything about birds, wildlife, and culture etc.

We will do easy and moderate walks during this trip. No hard walks if you do not want to.

**Road and Transport** We will mostly drive on paved road during this trip. The average drive per day will cover 100-150 km (2-3 hours) with short stops. Mitsubishi Delica, Russian Furgon or Toyota Land Cruiser will be employed depending on your request. Our experienced and skillful drivers will drive safely on the occasion of off road journey.

**Weather** Temperature is generally warm or hot during days in June, mostly being 15-30 degrees Celsius. You can check weather forecast on [www.tsag-agaar.mn](http://www.tsag-agaar.mn) while you are packing or staying at the hotels in Mongolia where it is possible.
