*During migration, it is likely to find many species of waders on a small pond. On this photo, a single flock of Black-tailed Godwits & Pacific Golden Plovers flying over the Tsagaan Lake, a Ramsar site.*

## **FABULOUS BIRD MIGRATION TOUR IN MONGOLIA**

**Spectacles of spring/autumn migrations of birds of Arctic tundra and Siberia**

### **Trip Information**

**Date & Duration:** This tour will run two times a year; 01 - 14 May or 10 - 23 Aug, respectively. And it continues for 14 days including arrival and departure date in Mongolia.

**Price per person** 3340 US\$, includes all transport within Mongolia by 4WD including petrol, English speaking bird guide, meals except last dinner, and drinking water, organize city tour and shopping, entrance fees, road tolls, visa support invitation letter if necessary.

**Deposit** 1002 US\$ should be paid through our website 3 months in advance. Be sure that you have read our *terms & condition* before you make a payment.

**How to book** Easily click on the 'Book this trip' button on each tour's page and you will be delivered to the booking form, in which specific questions asked. Our collaboration with Khan Bank has been taken care of the security of transfer.

**Group Limit** 4-13 participants, plus a local guide

**Accommodation** Please note that the hotels you are staying at are below the average of international hotels, but those are clean, comfortable, and has en suite rooms.

No tented camping during this trip. You will stay overnights in permanent tourist ger camps, which have gers (yurts) for accommodation, and separate blocks with European style toilets and shower rooms, as well as restaurant. Each ger is equipped with a small wood or coal burning stove, which fired by a worker of the camp. Deluxe en suite gers are also possible, but it charges little bit higher than the standard ones.

**Meals** All main meals are included in the price, except farewell dinner at a restaurant because we will be happy for you to choose your own dishes.

We will have optional packed lunches in the field near birding sites.

**Levels** The tour is suitable to every bird watcher with different levels of skills, and ages. Our experienced guide will do his/her best to explain everything about birds, wildlife, and culture etc.

We will do easy and moderate walks during this trip. No hard walks if you do not want to.

**Road and Transport** We will mostly drive on paved road during this trip. The longest drive will cover 200 – 250 km a day, which will take about 3 hours without stop. Mitsubishi Delica or Russian Furgon will be employed. Our experienced and skillful drivers will drive safely on the occasion of off road journey.

**Weather** Temperature is generally warm to cooler during days in August and May, mostly being 10 – 20 Celsius degrees. Early May might be windy, so you should bring glasses for protection of your eyes. You can check weather forecast on [www.tsag-aqaar.mn](http://www.tsag-aqaar.mn) while you are packing or staying at the hotels in Mongolia where it is possible.
